Screenshots   iPhone   iPad

Scan the world in 3D with Scaniverse, a 3D scanning app that supports all recent iPhones and iPads, including those without LiDAR. Scaniverse uses photogrammetry to accurately reconstruct objects, rooms, and even whole buildings and outdoor environments. On devices where LiDAR is available, Scaniverse takes advantage of it to deliver an even higher level of accuracy.

Share your scans by posting to Scaniverse, where they can be viewed in 3D or AR on any device with a web browser. Create videos that can be   more

Great for what I do
I've been making and posting board game videos but filming in tight spaces with kids and noise make it hard. I got this app to play with the idea of ma more

The easiest and the one of the best
I have tried about half a dozen of LiDAR room scanners and scaniverse is the easiest and fastest to use plus gives results as good as any other. One th more
